

Robert Borders & Associates is a multi discipline, full service firm dedicated to the highest standards of quality and integrity; providing architectural, planning and interior design services for a diverse range of commercial markets and clients.

As a broad based general practice, our core capabilities and expertise enable us to provide comprehensive design services ranging from client consultation and conceptual design through construction document preparation and construction and contract administration. We have experience with LEED Building Certification processing and sustainable design practices and have been providing many of these services to the commercial office, industrial, recreational, religious, financial and retail markets. Programming, space planning and commercial interior design comprise a significant portion of our work.

## ARCHITECTURE, INTERIOR DESIGN, SPACE PLANNING AND TENANT IMPROVEMENTS FOR CITY AND GOVERNMENTAL FACILITIES

RBA has provided expertise for architectural design, interior design, space planning and office improvement projects for a variety of municipalities including:
