

ARCHITECTURE

PLANNING

COMMERCIAL INTERIORS

Robert Borders & Associates is a multi discipline, full service firm dedicated to the highest standards of quality and integrity; providing architectural, planning and interior design services for a diverse range of commercial markets and clients.

As a broad based general practice, our core capabilities and expertise enable us to provide comprehensive design services ranging from client consultation and conceptual design through construction document preparation and construction and contract administration. We have experience with LEED Building Certification processing and sustainable design practices and have been providing many of these services to the commercial office, industrial, recreational, religious, financial and retail markets. Programming, space planning and commercial interior design comprise a significant portion of our work.

COMMUNITY ASSOCIATION COMMON AREA FACILITIES AND CLUBHOUSES

RBA has provided services for the development of various amenities for a number of Homeowner Associations including thematic large scale clubhouses, community architectural iconic entry gates and identity signage, clubhouse/multi purpose room facilities, pool side restroom and shower conveniences, high end spa enclosures and shade structures. We have expertise with recreational facilities including collaboration with playground structures and equipment vendors for aquatic and skate park facilities, dog bark park facilities, outdoor dining and bar-b-que areas and other typical residential development common area amenities.

Clients include:

Belcourt Master Community Association * Lake Forest II Master Homeowners Association * Niguel Shores Community Association * Palmia Master Association * Professional Community Management, Inc.-Laguna Woods * Spyglass Hill Community Association * Turtlerock Crest Community Association

About Robert Borders & Associates

Since the firm's inception in 1967, our highly skilled, experienced and creative team has completed a multitude of project types. The success and longevity of the firm has been the result of strong relationships built on time-tested excellence in service. We appreciate the many referrals and repeat clients who continue to entrust us with their projects.
